## OVER THE DARK RIVER

MRS. WM. M. TEMPLETON.

(From Fulton Record, July 11.)

The hour for the beginning of heavenly peace and happiness came to Mrs. William M. Templeton at the home of her sister, Mrs. Tom Cahalan at one o'clock this morning. Mrs. Templeton was formerly Miss Beanie Meacham, the second of six children, of W. R. Meacham who until one and a half years ago resided in this city but moved near Evans.

She was married to Mr. Templeton during her fifteenth year, ten years ago, since that time she and Mr. Templeton lived with her parents until two years ago when they went to Texas in interest of health for both. They returned and about a week ago she came to visit her sister. She was suddenly taken ill with typhoid fever which caused the death of her late husband.

In speaking of her let us call her Beanie, because she is still young and beautiful. She has been spoken of to us in no other way than that she possessed a true, loving disposition which in the future will prove to be a great loss to the deeply grieved family who cannot yet realize that their daughter and sister is in a state of permanent happiness.

Mrs. Templeton was a member of the church of Ben Hur besides being a working member of the Primitive Baptist church.

The funeral services will be preached by Rev. D. Boar tomorrow morning at the residence of Mr. Cahalan in Central Fulton at 10 o'clock.

Burial takes place at city cemetery.

MRS. MOLLIE DAVIS.

Mrs. Mollie D. Davis, one of the best citizens of this county died at 8 a. m. at the home of her son, Pat Smith. Death was due to a stroke of paralysis that occurred at 3 a. m. The stroke came without previous warning and her comparatively sudden death was a great surprise to her family and friends.

Mrs. Davis was born Sept. 5, 1838, near this place. She was the daughter of Mr. and Mrs. Noah Norman. At an early age she married E. L. Smith, the union being blessed with two sons, T. N. and D. Smith who survive her. Some years after the death of her husband, which occurred 30 years ago, Mrs. Smith was married to Hillary Davis. Mr. Davis died some 14 years ago.

Besides her two sons T. N. and D. Smith, Mrs. Davis is survived by one brother, Dan L. Norman.

Deceased was one of the most highly respected Christian women in Fulton county and her death is universally deplored.

The funeral services will be conducted by Rev. W. A. Freeman, tomorrow morning at 9 o'clock at the residence of Pat Smith, burial following at the city cemetery—Fulton Leader Tuesday the 9th.

Mrs. Smith was the mother of Tom Smith, our county attorney. The Courier extends to him and his brothers our sympathy in the sad bereavement.

MRS. AL THOMAS.

Mrs. Winnie Harper Thomas died at her home near Hickman, Friday last after an illness of typhoid fever. She had been in ill health for seven months. She was the wife of Mr. Al Thomas, one of the best known farmers in the county, who together with eight children, survive her. She was a patient sufferer, praying for her husband and children throughout her many months of suffering.

Born in Hickman, in 1860, she was converted and became a devout member of the poplar Grove Church in 1872. She was a daughter of Mrs. M. L. Harper, who lives several miles from Hickman, near Poplar Grove.

It is sad for a pure sweet life to be taken from husband and children, but they trust in the Wisdom of Him who gave her life, and who alone has just right to take it. It is comforting for them to know that she was prepared to enter the new home which her Savior has prepared for her as a reward for her pure, christian life in this earthly home. She is only a temporary dwelling place after all in which we are all to prepare to meet our loved ones in the eternal home.

The funeral services were conducted by Rev. Watson, and interment made at Poplar Grove Cemetery, Saturday.

The Courier joins the many friends of the bereaved family in the loss of mother, wife and daughter.

## Committed Suicide.

Prof. C. W. Oldrieve, the man who walked by Hickman during January, on the waters of the Mississippi river, on his way to New Orleans, for which it is claimed he received \$5000 as a wager, committed suicide in Memphis last week, by swallowing chloroform. He died in the hotel in which he swallowed the poison. Two attempts were made, he having tried to swallow a bottle of the poison in the presence of the bartender at the hotel, but was prevented from doing so. He had threatened to end his life several times a few days previous.

The cause of his deed was due to the death of his wife a few days previous. While lighting some fireworks in an exhibition he gave an accident at that place in the near future and was not with his wife when she died.

He was of English descent, and was the champion water-walker in America.

## In The Fourth Estate.

A fellow never needs a search light to find trouble.

Be charitable—not only in giving, but in your judgments and criticisms of your neighbor. You don't know his side of the "story."

Rosetta Niday said that love for the man that one marries will make a home of an attic, or change the weather side of a hedge row into a palace.

Who is it that is the greatest benefactor in the world, he who weaves the webs that shine like gold, or he who ties the knotted, broken ends in the tangled web of life.

The old gentleman was in the big furniture store. "By the way," he said, just before leaving, "my daughter has just started to have a young man calling, and I suppose I should buy them a pretty sofa to make love on. 'Yes, sir,'" responded the suave clerk, "and here is the very kind you need. It is called Cupid's Retreat." "H'm! What are the good points?" "Why, in just one year the cover wears off displaying a card: 'It's Time to Get Married.'"

The man or woman who is unwilling to make self-sacrifice, whatever that is, can never know the depths of true friendship. And, the exalted sentiment of love. That's a sealed book to them.

## Sublette-Davis.

Mr. Harry R. Sublette and Miss Mary Lou Davis were quietly married Wednesday evening at 9 o'clock at the Methodist parsonage, the Rev. L. D. Hamilton officiating.

The marriage was very much of a surprise to many of us, but, come to think of it, it is not so astonishing that a couple so well matched should have met at the altar over which Cupid holds sway.

The groom is one of our thorough-going, progressive young men who divides his time between agricultural pursuits and town affairs, and is successful in whatever he sets his hands to. Few men have more friends and well wishers.

The bride is an accomplished and attractive young woman, daughter of Mr. Henry Davis, a substantial farmer of Fulton county. She has spent much of the time in Clinton for several years past, stopping with her sister, Mrs. A. W. Ramsey.

The Gazette extends to the happy couple best wishes and congratulations.—Clinton Gazette.

Mrs. Sublette is a sister of attorney B. T. Davis, of Hickman. She visits here frequently and has hosts of well wishing friends in Hickman.

## A Courier Friend.

Mr. J. W. Benton, one of the Courier's best friends was in town Saturday. He renewed his subscription while here. He is a good friend of the Courier, having been a subscriber since before the Civil war, more than forty years.

Our friend and subscriber, W. G. Adams, of Route Four, near Moscow, was in town Friday of last week and called at the Courier office while in town. He states that the wheat yield in his section is about as good as anywhere else. He says that the corn is a little late but thinks a nice crop will result. Mr. Adams lives in one of the best sections of the county.

Cooley & Hagan's showboat, the Wonderland, is at the Fifth street landing tonight. While we go to press too early for the show, we had the pleasure of hearing the street concert, which was the best we have heard for some time. We feel safe in saying to our people that this show has no equal on the river. Our exchanges all are loud in praise of them. The boat is a gem, and you need not mind the hot weather, for they have four large electric fans that will keep you cool. The character of performance given by this company is of the best. All persons with tuberculosis in an advanced stage are to be debarred from entering Texas. Dr. W. H. Brumley, State health officer, says that within a few days he will issue a proclamation establishing a rigid quarantine against all persons afflicted with the disease in an acute degree. In doing this he places tuberculosis in the same category with yellow fever and smallpox.

## Another Freak Journey.

Now comes the journey from Nashville, Tenn., down the Cumberland River, to the Ohio, down the Ohio to the Mississippi, down the Mississippi to the Gulf, and thence to South America in frail canoes. This freak journey coming in the wake of the journey of the late Prof. Oldrieve, will prove interesting. The Nashville press says of the trip:

Joe Loftin and Henry Tankley, two well-known Cumberland river men, pulled away from this port today on the longest river journey ever accomplished by canoe in the United States. Their destination is New Orleans, a distance of 1,000 miles, and the trip will consume several weeks.

The adventurers are traveling with a flotilla of three canoes in frail fashion, the rear ones carrying the necessary paraphernalia and provisions. By means of four poles fastened to the lead canoe's bottoms the travelers will be protected from bad weather, as canvas can be tacked on to a moment's notice. Heavy tarpaulins will protect a small cooking stove and utensils.

The ultimate destination of the men is Central America. Stops will be made at Paduch, Cal., Memphis and Vicksburg to replenish supplies.

Two trips down the Mississippi from St. Louis to New Orleans by gasoline launch are on record, but this is the first time canoeists have ever attempted the dangers of the treacherous father of waters in their frail crafts. The voyagers, however, are confident of with standing the heavy waves of the big Mississippi steamer, as they built their boats with their probable experiences on the Mississippi especially in mind.

## ONE'S OWN GARDEN

FASCINATION IN THE PURSUIT  
OF HORTICULTURE.

Pleasure and Health Combined in  
This Ideal Form of Exercise  
To Honor One's Favorite  
Past or Author.

A number of women, blessed with leisure and opportunity, have succumbed to the fascinations of gardening, and the present is just the time when Mother Earth proves irresistible to her votaries. Gardening as a hobby possesses the great advantage of combining all the qualities of the ideal form of exercise, as it not only conduces to healthy movement, but is an absorbing pursuit as well. The countrywoman, when no longer young, is enough to play any game more violent than croquet, and condemned to live as she is where there are no shops to tempt her from her home, often obliges herself to take that objectionable thing known as a "constitutional." Its very name—reminiscent of Cornell Blimber—is enough to bring on an attack of the "blues," and to go out for a walk with no other object but the uninspiring one that it is supposed to do one good, is as depressing as the breathing exercise of the daily skipping for 20 minutes, recommended by health faddists to poor afflicted mortals. Truly, our desire for health, an incidentally for a good complexion, has to answer for much patiently-endured boredom.

The latest horticultural fancy is to have a Shakespeare garden in which are grown all the flowers—a goodly list—mentioned in the plays of the great Elizabethan dramatist. It is decidedly more romantic than the culture of sweet herbs, and much easier for the amateur to manage than an alpine border. The idea could be carried out according to one's personal taste, and the fair gardener might choose her own favorite poet or author and study his works while waiting for her plants. A Tennyson garden, a Wordsworth garden, or a Meredith garden would each and all be charming. Poetry and botany go together, and in many instances the plot of earth consecrated to one's chosen bard could not be a particularly small one.

**Serviceable Couch.**  
To a 36-inch long spring legs are fastened with bolts. Pieces of 2x12 inches long will do for the legs.

I used the lower parts of an old bedstead, says a correspondent. On this spring place a mattress the same size. Cover mattress with a table cloth which is large enough to reach army on sides of bed springs. This keeps out the dust. On the back side of the couch drive in a row of nine carriage knobs. For the cover use four and one-sixth yards of tulle or gauze. Sew it together, making it one and one-half width of the carpet wide. The pleating will not show under the pillows. Flank front edge and ends of cover with rug fringe. Face the back edge and in this facing work a row of buttons to button the cover on the carriage knobs. This keeps cover in place. For pillows use stair carpet to match cover. To clean couch, first vacuum and shake it and wipe dust from ottoman. Our couch like this has been used in an office ten years and still looks like new.

**Maryland Chicken.**  
Joint a small chicken, roll in seasoned flour, then egg and crumb the joints, says Good Housekeeping. Lay in a dripping pan and on each joint lay a thin slice of fat bacon. Bake 20 minutes in a very hot oven, removing the bacon to a platter when thoroughly cooked. Arrange the joints with the bacon, thicker the fat in the pan with two level tablespoons of flour, add one cup of this cream, and when thoroughly blended strain over the meat.

**Spice Layer Cake.**  
Cream one cup of butter and two-thirds of a cup of sugar, add the beaten yolks of four eggs, a cup of milk, a teaspoonful each of ground cinnamon and cloves, and a half nutmeg, grated, two cups of flour, sifted, with two teaspoonfuls of baking powder, and mix well. Bake in layer tin. This cake is good with a coconut filling and the white layers make a pretty contrast to the dark cover. Cover with white frosting and half English walnuts over the top of the cake.

**Inexpensive Turnover.**  
As a rule the embroidery on hemstitched handkerchiefs is much finer than that on the turnover one buys in the stores. When the turnover chiefs become worn in the middle cut out the four sides, sew narrow bands on, and you will have four pretty turnover. Especially is this true when you have fine linen handkerchiefs.

**Cut It Short.**  
Considering how little of value most people have to say, it takes them a surprisingly long time to say it.

## Cellar Under the Sea.

At Cape Breton there are immense cellars, being bored under the ocean. These submarine mines cover a thousand acres, and are being increased steadily. The mines are entered at the shore, and the operators follow the vein beneath the water for more than a mile. It might be expected that the weight of the water would force its way into the mine. The bed of the ocean is as tight as a cement crust. A sort of crevice lines the submarine roof of the mine, and the sediment above is held in place and packed down by the water pressure until there is not a crevice nor a drop of water from overhead.

## LIFE INSURANCE A SACRED TRUST.

Responsibilities of Officers and Directors.

Evidently President Kinsey of the New York Life Insurance company has learned the great lesson of the times with respect to the responsibility and duty of directors of corporations. Speaking to the new board of trustees, on the occasion of his election to the presidency, he emphasized the fact that "life insurance is more than a private business, that life insurance trustees are public servants, charged at once with the obligation of public service and with the responsibilities that attach to a going business which at the same time must be administered as a trust."

He also realizes that similar responsibilities rest upon the officers of the company. "I understand," he says, "your anxiety in selecting the men who are day by day to carry this burden for you, who are to discharge this trust in your behalf, who are to administer for the benefit of the people involved the multitudinous and exacting details to which it is impossible for you to give personal attention. My long connection with this company, and my knowledge of its history, make me feel that the burden you have placed on my shoulders, but of the standards of efficiency, the standards of faith, the standards of integrity, which must be maintained at all times by the man who serves you and the policyholders in this high office."

Best of all, perhaps, he feels that words are cheap, and that the public will be satisfied with nothing short of performance. "My thanks," he says, "for the confidence which you place in me, and the honor which you have placed in my hands; they must be read out of the record this next day by day."

## THE BEST HE COULD GET.

Amateur Gardener Could Not Understand Why Seeds Did Not Sprout.

The woes of the amateur gardener are very amusing to others, but decidedly real to the man who has spoiled a suit of clothes, blighted his hands and lost his nerve in his efforts to make things grow. A young man, recently married, early in the spring secured a suburban place, mainly with the idea of "fresh home-grown vegetables." Every evening he would hurry through his supper and rush out to his garden, where he displayed more energy than skill. But, alas! When many little green things began to break the ground in his neighbor's garden, his own remained as bare as the Sahara. "It certainly has got me beat," he confided to a friend at his office one day. "I can't understand why not a blessed thing has come out of my planted peas and corn and tomatoes."

"Perhaps the seed were defective," the friend suggested. "That was that," the gardener replied. "For I got the very best—paid 15 cents a can for them."

## Much Money Redeemed.

The amount of money which the government is called upon to redeem in the course of the year reaches an almost fabulous amount. In 1904, for instance, it totaled \$12,000,000. This redemption is either for the purpose of securing cash, fresh notes or to get change of some other denomination.

## COULDN'T KEEP IT.

Kept It Hid from the Children.

"We cannot keep Grape-Nuts food in the house. It goes so fast I have to hide it, because the children love it so. It is just the kind of grain looking for ever so long; something that I do not have to stop to prepare and still is nourishing."

Grape-Nuts is the most scientifically made food on the market. It is perfectly and completely cooked at the factory and can be served at an instant's notice, either with rich cold cream, or with hot milk if a hot dish is desired. When milk or water is added, a little sugar may be added, but when cold cream is used alone the natural grape-sugar, which can be seen glistening on the granules, is sufficiently sweet to satisfy the palate. This grape-sugar, fresh poured over the granules, as some people think, but exudes from the granules in the process of manufacture, when the starch of the grain is changed from starch to grape-sugar by the process of manufacture. This, in effect, is the first act of digestion; therefore, Grape-Nuts food is pre-digested and is most perfectly assimilated by the weakest stomach. "There's a Reason."

Made at the pure food factories of the Postum Co., Battle Creek, Mich. Read the little health classic, "The Road to Wellville," in page.

## TO STRENGTHEN COAST FORTS

GENERAL COURSE OF INSTRUCTION WILL COMMENCE IN A FEW DAYS.

Magazines and newspapers for the last year have contained articles and illustrations showing that many forts of our seacoast defenses are ill-manned, that some of the most powerful guns are out of order, and that the manning of the forts is inadequate to repel an unfriendly fleet on either the Atlantic or Pacific coast.

OUR STRENGTH TO GREAT

Strong American Squadron in Japanese Waters Would Be a Peace Guarantee.

New York, July 13.—"That there can be no question of a conflict between Japan and the United States is as plain as the axiom that two and two make four," said Kojima Matsukata, a Japanese of high rank and editor of the Kobe Shimbun, one of the most influential newspapers in Japan, Saturday. Mr. Matsukata was educated in America. He is here with Admiral Baron Yamamoto.

"As a nation we Japanese are puzzled at this war talk," he continued. "There is no real war party in Japan. There are perhaps 10,000 men out of 60,000,000 who are excited. The class, which I would probably be termed 'lingoes,' we call in Japan 'yakkimura,' or 'thoughtless ones.' But even these do not clamor for war. Their only request is that our government prove itself strong enough to demand redress for the damage inflicted on our countrymen in San Francisco. As for the San Francisco affair, it is to our mutual national relations as the sting of a goat on a human body. If the honor of our nation were at stake we would fight. The only preacher that the Reel-foot neighborhood ever produced, is Rev. A. P. Mitchell, of Steele, Mo. He was in town Saturday shaking hands with old acquaintances of twenty-five years ago. At that time he was a fisherman on the lake. He says Hickman has more the appearance of a city than any place at which he has stopped between Nashville and Hickman.

### Franchise Sold.

A special from Mayfield, June 13, says:

If the sale of a franchise with a bond of \$1,000 attached signifies anything Mayfield will perhaps have an electric car line entering its limits from Paducah within the next 12 months. As advertised, the franchise was sold at the city hall yesterday by Mayor Watts, and the best and only bidder was J. W. Williams & Co., the other members of the concern being composed of the following Paducah and McCracken county capitalists: H. H. Lowing, George Kuth, John F. Harth and B. H. Scott. The price paid was \$200.

This company has for the past five years had an electric line between these two cities in contemplation and has held a charter all the while. The thousand dollars put up by them is to insure the city that the road will be begun within the next twelve months and completed in five years.

It is the company's intention to construct their line so that it will touch all the stations on the I. C. road between here and Paducah, with a possible exception of Florence.

These towns are Hickory Grove, Viola and Boaz. It is probable that a survey will be made at an early date, a short while after which actual construction work will begin.

The company probably will form a corporation within a few days. While the principal purpose of the franchise will be to gain an entrance to Mayfield, it is also the intention of the company to lay tracks on two or three of the principal streets of this city.

It is probable that the main power plant will be located in Paducah, on the river.

The announcement of the intention of the J. W. Williams company comes as somewhat of a surprise to the people of Mayfield, as there has been but little previous talk of such.

An electric line connecting this city with Paducah will in a commercial way bring these cities much closer together and will be found to work toward a further development of the farming territory.

**Men of Millions Stand Ready to Test Practicality of Scheme of Howard Hansel Tunis—  
Speed of 150 Miles an Hour Is Among Promises Made.**

More than a dozen noted engineers among them Chief Engineer George Rice, of the Rapid Transit commission have investigated the new invention and have pronounced it practical. Some of them assert that it will revolutionize modern railroading because of the tremendous speed which it

On top of each car at both ends is attached an inverted truck. This is raised from the car by a strong steel arm, corresponding to a trolley pole, and the four wheels attached to the inverted truck fit into the "L"-shaped inner surface of the overhead tracks. The trucks are in the form of an "X" with a wheel at each of the four points of the "X." The "X" is flexible opening and closing to accommodate itself to the curves.

Nothing which ever moved on wheels can equal the speed claimed for the Tunis "mono-rail" trains. One hundred miles an hour is an easy matter, and the cars can be pushed to 150 miles without any difficulty. And, while the cars are going at this speed, it is claimed that the motion is so gentle that passengers are barely aware of the fact that they are moving. The jerky, swinging motion of two-rail trains is declared to be entirely absent.

As if all this were not enough to

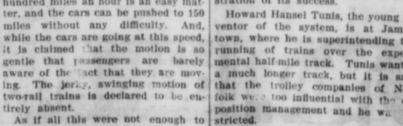

The plectors of the new enterprise figure upon building the eight miles of elevated track between Jersey City and Newark for \$2,000,000. To build the ordinary type of elevated road, with four tracks, would cost between \$7,000,000 and \$8,000,000. It is this cheapness of cost which inspires the backers of the enterprise to hope that they will reap tremendous profits, and that the success of this initial road between the two Jersey cities will be followed quickly by

Howard Hansel Tunis, the young inventor of the system, is at Jamestown, where he is superintending the running of trains over the experimental half-mile track. Tunis wanted a much longer track, but it is said that the trolley companies of Norfolk were too influential with the transportation management and he was restricted.

## THE BEAUTIFUL LESSON.

If you love, love more. If you  
hate, hate less. Life is too short to  
spend in hating any one. Why war  
against a mortal who is going the  
same road with us? Why not ex-  
pand the flower of life and happiness  
by learning to love, by teaching  
those who are near and dear the  
beautiful lesson? Your hands may be  
hard, but your heart need not be.  
Your form may be bent or ugly, but  
do you not know that the most  
beautiful flowers grow in the most  
rugged, unsheltered places? The  
palace for care, the cottage for love.  
Not that there is no love in a man-  
sion; but somehow if we were not  
very careful, business will crowd all  
there is of beauty out of the heart.  
This is why God has given the Sab-  
bath and Saturday nights, that we  
may leave business and have a little  
heart clearing.

## RECIPE FOR HAPPINESS.

Go out under the bright, glad sky;  
listen to the songs of the happy  
birds, the shout of the dancing  
brooks; see how the sunlight glorifies  
hill and meadow-land and comes  
shimmering down through uncounted  
forest leaves, these mellow, golden  
summer days. Turn your faces  
from the thronged towns and cities,  
forget a little while busy care, and  
let your soul thrill and glow under  
the wondrous touch of divine har-  
mony that fills all nature. The glad  
earth seems ever calling to an enjoy-  
ment of the all-true and the all-  
beautiful. Morning after morning  
we know the rills clap their hands  
for joy, as the sun, the green woods,  
and the hearts of the tiny bird thrill,  
again and again, because they are  
glad. And we have so much more  
to make us happy than they have—  
so many hopes and loves that bird-  
hearts never know. How can we go  
up and down the highways with sad  
countenances when the whole earth  
seems so happy? It seems like  
ingratitude to God to do so. And  
our smiles and pleasant faces will  
bring such sunlight to other hearts!

## RECH WITHOUT MONEY.

Many a man is rich without money.  
Thousands of them with nothing  
in their pockets, and thousands  
without even a pocket, are rich. A  
man born with a good sound con-  
stitution, a good stomach, a good  
heart and good limbs and a pretty  
good head-piece, is rich. Good  
bones are better than gold, tough  
muscles than silver, and nerves that  
dash fire and carry energy to every  
function, are better than houses and  
land. It is better than landed estate  
to have had the right kind of a  
father and mother. Good breeds  
and bad breeds exist among men as  
really as among cattle and horses.  
Education may do much to check  
evil tendencies, or to develop good  
ones, but it is a good thing to inherit  
the right proportion of faculties to  
start with. That man is rich who  
has a flavor of wit and fun in his  
composition. The hardest thing to  
get along with in this life is a man's  
own self. A cross, selfish fellow,  
a desponding and complaining fellow,  
a timid, care-burdened man, these  
are all deformed on the inside.  
Their feet may not limp, but their  
thoughts do. A man of fortune on  
the brink of the grave would gladly  
part with every dollar to obtain a  
longer lease of life.

## SWIFT DESTRUCTION.

We have sat upon the sea shore  
and waited for its gradual approach-  
es, and have seen its dancing waves  
and white surf, and admired that  
He who measured it with His hand  
had given it life and motion; and we  
lingered till its gentle waves grew  
into mighty billows, and had well-  
nigh swept us from our firm footing.  
So we have seen some of the heed-  
less youth of our town gazing with  
curious spirit upon sweet motions  
and gentle approaches of loving  
pleasures and sins, till they have  
detained their eyes and imprisoned  
their feet and they have been swept  
to swift destruction.

## TRUTH OF SCIENCE.

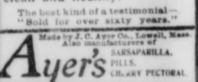

If you will look into the early life  
of truly helpful men, those who make  
life easier or nobler to those who  
come after them, you will almost  
invariably find that they lived purely  
in the days of their youth. In early  
life the brain, though abounding in  
vigor, is sensitive and very suscep-  
tible to injury, and this to such a  
degree, that a brief moderate indul-  
gence in vicious pleasures appears to  
lower the tone and impair both the  
delicacy and efficiency of the brain  
for life. This is not preaching  
boys, it is simply the truth of  
science.

## THAT SWEET SONG.

The secret longing of nearly all  
who are wanderers or whose abiding

## My Hair is Extra Long

Feed your hair; nourish it;  
give it something to live on.  
Then it will stop falling, and  
will grow long and heavy.  
Ayer's Hair Vigor is the only  
genuine hair-food you can  
buy. It gives new life to the  
hair-bulbs. You save what  
hair you have, and get more,  
too. And it keeps the scalp  
clean and healthy.

place is temporarily among stran-  
gers, is expressed in the words of that  
sweet song "Write me a letter from  
home." The one thing that the  
heart needs is a word from those  
around the old hearth-stone. Es-  
pecially is this so in the case of  
young men. No boy goes out from  
the Home Circle without sense of  
loss. For a time, at least, the  
motherly presence is sadly missed,  
the sisterly affection warmly cher-  
ished. Then if the mother's letters  
reach him often, filled with all that  
a mother most eloquently expresses,  
love, hopefulness and prayer, he is  
still surrounded by a holy influence.

If the sister writes frequently,  
and with purpose of heart, in such  
ways as her heart naturally prompts,  
he can hardly run into sin. And if  
home epistles come seldom, what  
then? The loss in the young man's  
life must be made up. He finds his  
leisure hours dull, and they must be  
enlivened. There is no call for long,  
heart-full letters in return for similar  
ones. The evenings he might give  
to penning these, he spends in amuse-  
ments of doubtful character. Want-  
ing the tenderness of woman's love,  
it is not strange if he falls a victim  
to wicked wiles. So he forsakes his  
better self and takes to his bosom  
pleasures that sting him to death.  
And ere long he becomes a thing for  
the mother and sister to weep over,  
and his promising young life fades  
out in darkness. A sad picture this  
of course. But it is only a sad  
picture of even sadder realities.  
There are hundreds of young men in  
every great city, in the very lowest  
depths of degradation, whom the  
home influence, carefully and prayer-  
fully extended through tender,  
affectionate, womanly letters, might  
have saved. There are hundreds of  
others, just taking their first lesson  
in virtue who may be brought back  
to purity by loving words from mothers,  
sisters or sweethearts. Until a man  
becomes thoroughly vicious, the thro-  
t of a pure woman's love will do much  
to restrain him from iniquity. If  
that love grows careless of him, he  
grows careless of himself. Think  
of this, you who have sons, brothers  
or lovers away among strangers.  
Remember that you owe them a  
sacred duty; and give them frequent  
missives from home, freighted with  
love and accompanied by earnest  
prayer.

merit, samples of Mr. Dr. Shoop's  
Restorative, and my Book on either  
Dyspepsia, The Heart or The Kid-  
neys. Troubles of the Stomach,  
Heart or Kidney, are merely symp-  
toms of a deeper ailment. Don't  
make the common error of treating  
symptoms only. Symptom treat-  
ment is treating the result of your  
ailment, and not the cause. Weak  
Stomach nerves—the inside nerves—  
means Stomach weakness, always.  
And the Heart, and Kidney as well,  
have their controlling or inside  
nerves. Weaken these nerves, and  
you inevitably have weak vital  
organs. Here is where Dr. Shoop's  
Restorative has made its fame. No  
other remedy ever claims to treat

## A Letter.

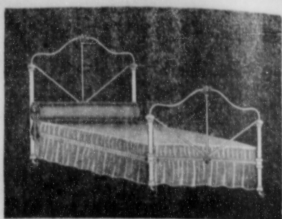

Elkins, N. Mex., July 8, 1907.  
Editor Courier:

As I have many friends  
I trust who are readers of the Cour-  
ier I take this method of writing to  
all of them, as well as to all the  
readers of the Courier. My farm  
situated five miles north of Elkins  
and six miles west of Boaz, I have  
a fine claim and about 50 or 60 acres  
broken and planted in corn, potatoes  
and all kinds of garden stuff. Every-  
thing looks well that I have planted.  
As to climate, it is good. It is one  
of the finest places for a cool sleep  
of any place that I have ever seen.  
We have a black sandy loam soil  
and seems to be unsuited for the  
retention of moisture. We can raise  
fruit here beyond a doubt, when we  
get the soil in proper state of cultiva-  
tion to set it out. Forty miles west  
of us, at Roswell is an orchard that  
brought the owner \$22,000 last year.  
Not the late frost has hurt the fruit  
here as well as elsewhere. Musk  
and Shiner are plentiful here and  
make splendid fuel, and beats pay-  
ing \$8 and \$9 for coal or \$4 for  
wood. Here you can sit down under  
your own vine and fig tree and watch  
your own crop grow, listen to the  
song the Coyote and Whippoorwill  
at night and enjoy the aroma of the  
flowers that nature has blessed us  
with.

Water is varied both in quality  
and quantity, the depth ranges from  
16 to 100 feet and even in some  
places 200 feet, and the quality also  
of course varies. Our roads are  
good, no stumps to run against, no  
high waters to drown you fear, no  
leaves to make, no mud to cut, no  
long winters to undergo and no ad-  
ditional clothing necessary. I am  
surely satisfied with my move.  
While we haven't so many neigh-  
bors here as in the east we know  
that they are coming and soon we  
will see on every quarter families  
that intend to make this their home.  
Myself and family join in sending  
regards to all the dear people of  
Mississippi county, wishing them a  
bountiful harvest of good things.  
We are ever yours faithfully.
